

Much of the business of the College is conducted by the various committees struck by the Board. In some instances the Board delegates its authority to a specific committee and in others the Board receives recommendations from a particular committee.

The Health Professions Act gives the College the authority to establish certain committees and provides for:

- ◆ the appointment and removal of committee members;
- ◆ the procedures to be followed by the committee;
- ◆ the delegation of the duty or power of the board to panels of committees;
- ◆ and the remuneration of Board and committee members.

The Registrar is an ex-officio member of every committee of the Board.

Committee memberships are considered on an annual basis.

Registrants may forward their written comments to any Board or committee member by addressing their concerns to that member c/o the College office. All material received related to committee matters is forwarded to the attention of the appropriate committee.
