

MESSAGE FROM NORTHERN HEALTH AUTHORITY

March 19, 2021

The Ministry of Health has identified **dentists, dental assistants, dental hygienists, denturists, dental technicians and their office staff** as health care professionals providing direct patient care in acute and community health care settings (including home care) that are now eligible for the COVID-19 vaccine in Phase 2 of [BC's COVID-19 Immunization Plan](#) in March-April.

To book an immunization appointment, phone the Northern Health Call Centre at 1-250-645-8900, Monday-Friday between 8:00am and 4:00pm. Let the Call Centre staff know that you are a **Direct Care Provider** so that they can identify you as eligible for the vaccine. You will be booked into a clinic in your community when one is available. Clinics do not run continuously in all northern BC communities.

If you are in Prince George, please start phoning for an appointment after **Tuesday, March 23**, as NH is putting additional clinics in place in PG to accommodate the demand.

Thank you.
